

The Florida Center for Reading Research is pleased to partner with the Florida Department of Education to host an informational webinar to support districts and schools with implementing the Reading Tutoring K-3 Student Program. The information presented in this two-hour training has been compiled and developed to help districts, school-based practitioners, and stakeholders in a guided process of planning and implementing a state-funded reading tutoring program for students who need additional support in early literacy.

	Part 1 Developing and Deploying an Evidence-Based Reading Tutoring Program	Part 2 Effective and Evidence Based Practices for Tutoring Students
Date, Time, and Duration	April 13, 2022 Time: TBD Duration: 60 minutes	April 13, 2022 Time: TBD Duration: 60 minutes
Structure and Modality for Delivery	A two-hour webinar will be hosted online through registration with FCRR.	
Targeted Audience(s)	Up to 5 attendees: District Level Literacy Leaders, Curriculum Developers K-3, or Professional Learning Representative K-3	Up to 5 attendees: District Representatives that will train school site representatives in the training process of K-3 Tutoring
Content Focus	Understanding elements of a tutoring program, effective practices for tutoring, and tools available to support implementation/decision making. <i>Note: This webinar will be designed to inform participants who will administer the program.</i>	Understanding the role of a reading tutor, how students learn to read, effective practices for tutoring, and where to find resources. <i>Note: This webinar will be designed as a Train-the-Trainer, so that district-level program administrators can redeliver it locally to tutors and other appropriate staff.</i>
Resources and Materials Provided	Recorded Webinar, PowerPoint, links to literature, and videos for training tutors will be housed on the FCRR website for later use. Ongoing support will be provided through FCRR by contacting JBaisden@fsu.edu .	

For more information, please contact Dr. Julie Baisden at JBaisden@fsu.edu
