# ACADEMY

FLORIDA CENTER *for* READING RESEARCH

1200 educators enrolled across 49 states and over 20 countries

### WE STUDY READING AND...

genes and the brain

language and literacy

instruction and assessment

dyslexia and other disabilities

### UNTIL EVERY CHILD IS READING AND SUCCEEDING IN SCHOOL AND BEYOND

#### Award-Winning Faculty

internationally recognized interdisciplinary researchers

#### Leading with Evidence

rigorous research on problems of policy and practice

#### Innovative Solutions

evidence-based tools you can use today

#### Authentic Partnerships

collaborating with schools and communities to grow readers

#### Building Education Careers

training the next generation of teachers, clinicians and researchers

The most helpful aspect of this partnership is the open discussions about issues that impact our daily work. These are not broad discussions; they are literal and often are accompanied by distribution of resources that we can use now to move forward. I so value having knowledgeable practitioners that can come along side our organization and help us as we plan for the next step and long-range implementation. Such a valuable partnership.

—School District Leader,  
Florida Panhandle K5 Literacy Partnership
