Objective
The student will blend onsets and rimes to make words.

Materials
- Onset cube
  Labeled with the digraphs: ch, sh, th, wh, th, ch.
- Rime cube
  Labeled with the rimes: at, op, in, ip, ine, ick.
- Student sheet
- Pencils

Activity
Students make words using digraph onset and rime letter cubes.
1. Place the cubes on a flat surface. Provide each student with a student sheet.
2. Taking turns, students roll each cube. Arrange cubes so the onset (digraph) cube is placed to the left of the rime cube.
3. Blend the onset and rime, and say the word (e.g., /ch/ /ip/, “chip”).
4. Write the word (nonsense or real) under the appropriate onset column. Underline the real words and put an “X” through the nonsense words.
5. Continue the activity until all possible words are made.
6. Point to and read the real words in each column.
7. Teacher evaluation

Extensions and Adaptations
- Make other cubes with blends to make words.
Digraph Roll-A-Word

1. Cut along solid line
2. Fold along dotted lines
